Experience

Operations & Logistics Manager - Sociable Cider Werks

May 2015-December 2021

- Responsible for tracking packaging and product inventory
- Made sales, depletion, and production forecasts and schedules to maintain distribution, taproom, and sales staff inventories
- Design the most efficient packaging schedule based on limited tank capacity, juice availability, and time restrictions that meets purchase order demands as well as taproom needs and communicate that schedule to the production staff. Update it as needed
- Manage and operate a one man, third party crowler distribution service
- Assistant Production Manager
- Sole CDL driver.
- Long haul drove juice totes and trucks across the country
- Worked all positions of the canning line during its early stages
- Worked in the cellar, mainly doing CIPs, carbonation cycles, and keg outs
- Designed a Mazer Cup award winning mead product
- Fixed and operated a defunct bottling line
- Managed the barrel aged program
- Designed layout of the warehouse according to the most efficient arrangement possible and update as needed
- Set electronic and physical thresholds that determine when to ship materials based on longest expected arrival time as well as space available in the warehouse
- Worked 45-51 hour weeks on average
